Bhakti Rane

Front-End Developer

+918928082564 | rbhakti12@gmail.com

Skill

i. **React JS**:
   a. React.js' virtual DOM optimization ensures lightning-fast rendering, resulting in a fluid and seamless user experience even in the most complex and data-intensive scenarios. This performance advantage not only enhances user satisfaction but also contributes to the overall success of our project.

ii. **HTML5, CSS3, Bootstraps, SCSS** :
   a. Delivering a polished and feature-rich web application that delights users and exceeds business objectives. By mastering these technologies, we elevate the standard of frontend development and drive innovation in the digital landscape

iii. **Axios:**
   a. Enabling eficient and reliable communication with external APIs and server endpoints. With its simplicity, flexibility, and robust feature set, Axios empowers us to build performant and scalable web applications that meet the needs of modern users and businesses.

iv. **JavaScript:**
